SUMMARY

A results-driven BSC CS graduate and Flutter Developer skilled in building intuitive mobile apps using Flutter and Firebase. Proficient in Provider, BLoC, GetX, and Riverpod with strong expertise in REST APIs, clean UI/UX, and performance optimization. Passionate about continuous learning and delivering high-quality solutions.

Experience

Flutter Developer Intern , Luminar Technolab, Kochi	June 2025 – Jan 2026
<ul style="list-style-type: none">• Built responsive and reusable UI using custom Flutter widgets with smooth navigation and animations.• Integrated Firebase and SQLite for authentication, cloud sync, and secure local storage with REST API communication.• Implemented scalable state management using Provider, GetX, BLoC, and Riverpod to deliver high-performance and maintainable apps.	

Education

College Of Applied Science Chelakkara , University of Calicut 2022 – 2025
• Bachelor of Computer Science CGPA: 67/100

Skills

Soft Skills: Problem Solving, Team Collaboration, Time Management, Communication

Programming Languages: Dart , C

Frameworks / Libraries : Flutter, BLoC, Provider, GetX, Riverpod

Technologies: REST API integration, MVVM, Dependency Injection, Payment Integration, Responsive App Development, Git/Github

Projects

Fusion Festa github.com/fusionfesta/repo

- Developed a full-featured mobile app allowing users to explore traditional cultural events and book tickets
- Implemented clean UI screens, event listings, AI chat assistant and booking flows using Flutter & Firebase
- Integrated state management and optimized app performance for smooth navigation and real-time event updates

Jio Hotstar Clone github.com/hotstar/repo

- Built a responsive OTT-style interface major features like carousels, categories, and video detail screens.
- Designed dynamic UI components such as banners, trending lists, and bottom navigation using Flutter widgets
- Focused on pixel-perfect UI/UX, animations, and scalability for future backend/video integration

Expenseo github.com/expenso/repo

- Created a complete personal finance tracking app with local data storage using SQLite
- Implemented CRUD operations for adding, editing, and deleting expenses
- Added features like monthly summaries, charts, and user-friendly UI for offline expense management

CERTIFICATION

Flutter and Dart: IBM (Coursera)
